## WILSON TAKES UP MEX. SITUATION WITH SECY. POLK

Makes Unexpected Visit to  
State Dept. Office  
Friday.

HAS APPROPRIATION BILLS  
STILL UNDER CONSIDERATION

Will Give Measures Deliberate  
Study Before Affixing  
Signature.

Washington, July 11.—President Wilson made an unexpected call on Acting Secretary Polk today at the state department. The President arrived with him a number of papers and it was understood that the Mexican question was among the first he wished to consider.

The president remained in earnest conversation with Mr. Polk for more than an hour. The under secretary of state is to go to Paris to succeed Secretary Lansing on the American peace delegation and it was said that the president had acquainted him with the situation there.

After leaving Mr. Polk's office, the president walked down the corridor to the office of Secretary Daniels where he went into conference with the head of the navy department. Many employees in the state war and navy building who were out for lunch, applauded the president.

President Wilson still had before him today appropriation bills passed recently by congress and it seemed doubtful whether any of them would be signed this week. The president was understood to feel that the measures carrying appropriations of more than \$2,000,000 deserved deliberate consideration.

It was indicated at the White House that the president was devoting considerable attention to the rider on the agricultural bill regarding the daylight savings law. He has before him many petitions, some urging that he sign the bill and others that he veto it. So far as could be ascertained the president's mind still was open.

No appointments for Mr. Wilson has been made at the White House this forenoon. However, the president was holding himself in readiness to meet the senate foreign relations committee informally or in formal session and also to confer with senators who might desire to discuss the peace treaty. It is indicated that the president had not yet begun preparation of the address to be delivered to the senate, when he presents the treaty, with France by which the United States would go to the French republic's aid in case of an attack by Germany.

Just when the treaty will be submitted seemed uncertain, but it was considered likely that this would be done before Mr. Wilson started on his tour of the country.

The president's itinerary for his "swing around the circle" remained uncompleted today. It was understood that several itineraries had been suggested. Accompanied by Mrs. Wilson, the president spent morning hours at this forenoon on the golf links at a country club near Washington. Returning to the White House at 11 o'clock he went immediately to his study again and attacked a mass of official business which awaited him upon his arrival from Paris.

The president has mapped out a definite program for dealing with the matters before him, and it was said this would be rigidly adhered to until he started on his speaking tour.

On the advice of his personal physician, Rear Admiral Grayson, the president will go to the golf links every day for exercise if it is possible for him to do so.

Mr. Wilson was said to be in excellent health but his physician deems it advisable that he spend as much time as possible in the open in preparation for his vigorous speaking tour.

## YOUTH PASSES BOGUS CHECK

Operations Here Involve  
Two Checks For \$888  
Which Were Refused at  
Banks.

Oscar Kenneth Blowers, 19, of Delaware was found over to common pleas court in the sum of \$800 as a foreign charge in police court this morning. He had passed two bogus checks on the Melburn restaurant and Hotel Sherwood.

Blowers who is of good appearance was arrested at Buckeye Lake last night by Chief Sherburne and Constable Hager. He was taken to the police station at the Sherwood, where he stayed part of the time. He asked the manager H. E. Scott to cash a check of small amount which was done and the check was returned. When informed of this Blowers professed his chagrin and immediately made it good. A few days later an accommodation he asked for the cashing another check for \$15.20 which was by the Whiting Dinning company on Russell Howard and signed by F. Thurm. It was endorsed by Howard and by Blowers. The Dallas Springs and Trust company of Wheeling, which it was drawn on, refused to honor it.

The chief in the McDonald and later Chief Hager went to Buckeye Lake last night where they arrested Blowers. He had also passed a check for \$14 on Melburn. When arrested he had \$15.20 in money, with which Blowers paid the check and an amount belonging to a girl he had met at the lake.

This morning in police court he was bound over to common pleas court in the sum of \$800.

## DON'T QUIT THE JOB.

This week's War Savings Stamp sales total nearly \$13,000, with five banks still to report.

While it is true that Licking County has a comfortable lead over every other county in Ohio in the race for the \$10,000 Victory Shaft, there is danger of losing the lead unless the stamp sales continue at a rapid pace until September 1st. This week's sale is about one-third of last week's sale of W. S. S.

Don't imagine that the prize is won because this county is at the head of the procession. The contest is only half over. Licking county is leading the state. The only thing that can keep this county in the lead and win the \$10,000 Barre granite shaft is the sale of stamps. Buy all of the W. S. S. you can this month and next and ask your friends to help. With the prize almost won don't quit the job and let another county slip into first place.

## U. S. TO RESUME TRADE WITH HUNS

State Dept. Announces Licenses Will Allow Commerce on Everything Except Dyes, Chemicals and Potash.

Washington, July 11.—Trade between the United States and Germany will be resumed immediately, acting Secretary Polk of the state department announced today.

Mr. Polk said blanket licenses would be issued, but that dyes, chemicals, and potash would be excepted. Control over trade in these commodities will be exercised by the reparation commission under the terms of peace treaty. A formal announcement regarding resumption of trade relations was promised within 48 hours.

Secretary Polk made it clear resumption of trade relations with Germany did not abrogate the trading with the enemy act nor was it to be taken as meaning that the state of war was at an end.

## FORD'S SON IS NOW PARTNER

Henry and Edsel, With  
James Couzens, Own  
All Stock In Detroit Fliv-  
er Factory.

Detroit, Mich., July 11.—Reorganization of the Ford Motor company is being completed, whereby Edsel B. Ford, 25 years old, president of the company, becomes with the exception of one other stockholder, the sole partner with his father, Henry Ford, in the corporation. This announcement was made today by Frank L. Klingensmith, vice president and general manager of the company.

Mr. Klingensmith announced that purchase had been arranged of all the minority stock excepting a block held by James Couzens, millionaire mayor of Detroit and former vice president of the company.

Reorganization of the company also contemplated, Mr. Klingensmith said.

Mr. Clemens, Mich., July 11.—It was learned on authority here today that Henry Ford has decided to increase the minimum wage of Ford Motor company employees to \$7 a day. It is believed the new minimum will be put in effect immediately by August 1, or thereafter.

It added that announcement of the delay at this time would be premature. Mr. Klingensmith and other officials of the company refused to divulge the amount involved in the purchase. It was estimated in financial circles, however, that it would total close to \$1,000,000.

Close to \$1,000,000 up to the present Henry Ford has held 25 per cent or over of the Ford motor stock. The minority stock owned in included that of John E. and Horace E. Dodge, heads of the Dodge Motor company.

Company officials declined today to announce the division of stock under the new arrangement, merely saying Henry Ford took no part in the negotiations for the purchase of the minority holdings.

To-day's announcement came as a complete surprise in motor and financial circles and it had been supposed the company was in the hands of a friendly corporation was seeking the majority holdings.

**SINCRATE FINANCES CHANGE.**  
New York, July 11.—A syndicate of investors here today announced the formation of a new company to take over the Ford Motor company, which has been in the hands of a friendly corporation was seeking the majority holdings.

**DROPS NEW COMPANY PLAN.**  
New York, July 11.—The Ford Motor company today announced that it had dropped its plan to form a new company to take over the Ford Motor company, which has been in the hands of a friendly corporation was seeking the majority holdings.

## EXTRA! STANDARD OIL REDUCES PRICE ON GAS

Chicago, July 11.—The Standard Oil company of Indiana today reduced the price of gasoline sold from tank wagons 2 cents a gallon in Chicago, St. Louis and Minneapolis territory, and one cent a gallon in all other territories of the nine states it serves. The price of Kerosene was advanced one cent a gallon in all of its territory.

**FIND BODY IN RIVER.**  
Youngstown, July 11.—The body of Nick Zaginsky, 24, was found in the Mahoning river today after a 24-hour search following reports that he had been kidnapped from his home at an early hour yesterday. Two men are said to have taken Zaginsky away in an automobile.

## STORM KILLS FIVE PERSONS

Wind, Rain and Electrical  
Storm Sweeps Western  
Pennsylvania — Search  
Ruins For Victims.

Pittsburgh, Pa., July 11.—Five persons were dead today, a dozen others missing, and more than two-score injured, as the result of a severe electrical storm, accompanied by high wind and a cloudburst which swept this section of the state late yesterday. The most serious damage was done at Bradford, where a tornado killed two persons, injured a score of other, and demolished 75 houses. Lightning killed two persons near Clinton and a farmer at Greensburg. Property damage will run into many thousands of dollars.

Wire service today was badly crippled by the storm and communication with other towns where victims of the storm were reported was impossible this afternoon. At Bradford rescue parties were searching the ruins of demolished houses for additional bodies. Nine persons had not been accounted for this morning and were believed to be buried under the wreckage of their homes. A number of injured were in hospitals.

Reports from outlying districts this morning showed the storm's damage to be heavy. Besides demolishing the southern part of Bradford, far buildings and oil derricks for miles around were wrecked.

At Bradford one house was carried a quarter of a mile by the tornado.

## BELA KUN KEEPS UP MURDEROUS WORK OF REDS AS LEADER

Bela Kun, as head of the soviet or Bolshevik government in Russia, is responsible for the untold murders, executions and outrages committed in Hungary under Red rule. He is second only to Trotsky as a Red leader. He served in the Austro-Hungarian army, was captured by the Russians and became secretary to Lenin. The Red reign in Hungary, under his guiding hand, has been as bloody as that in Russia. His troops shoot down citizens without provocation other than resistance to the outrages committed by the Reds. Street battles are frequent in Budapest and other cities.

Bela Kun, head of the soviet government in Hungary, receiving report from one of his aides, and officers of Vienna caring for other citizens killed by Kun's Bolshevik troops—a common sight.

## SEES MENACE IN PACKER CONTROL OF NATION'S FOOD

Federal Trade Commission  
Says Five Firms Control  
574 Companies.

HAVE INFLUENCE IN 188  
OTHERS, REPORT DISCLOSES

Produce and Deal in 775  
Communities Largely  
Food Products.

Washington, July 11.—An approaching packer domination of all important foods in the United States and international control of meat products with foreign companies seems a certainty unless fundamental action is taken to prevent it. The Federal Trade commission declared today in part one of its reports on President Wilson on the "extent and growth of power of the five packers in meat and other industries."

"A fair consideration of the course the five packers have followed and the position they have already reached," said the report, "must lead to the conclusion that they threaten the freedom of the market of the country's food industries and of the by-product industries linked therewith."

"The meat packer control of other foods will not require long in developing. The history of the packers' growth is intervention with illegal commissions, and intrigues with undisclosed control of corporations," the report urged full publicity of corporate ownership for all industries.

"As to devices for securing control, there does not exist adequately, the report said. "In its absent until competition may run its course to the goal of monopoly or accomplish the ruin of competitors without the secret ownership being suspected and consequently without complaint to the commission or investigation of facts. The competitor is in jeopardy so long as he has not the knowledge of true ownership and the public is entitled to such knowledge."

Alleging that the "big five" packers—Swift and company, Armour and company, Wilson and company, Morris and company and the Cudahy company—jointly or separately wield controlling interest in 574 companies, minority interest in 92—a total of 762 companies—and that they produce or deal in some 775 commodities, largely food products, the report gives this picture of growing packer invasion into related and unrelated industries. "In addition to meat foods, they produce or deal in such diverse commodities as fresh tomatoes and bean strings, leather and cotton seed oil, breakfast foods, vitamin, curled hair and washing powders. Their branch are not only stations for the distribution of meat and poultry, but take on the character of wholesale grocery stores, dealers in various kinds of produce and jobbers to special lines of trade."

"They have interests large enough to be a dominating influence in most of the services connected with the production and distribution of animal foods and their by-products, and are reaching out for control not only of substitutes of animal food, but of substitutes for other lines into which the integration of their business has led them. They are factors in cattle loan companies making the necessary loans to growers and feeders of live stock; are interested in railways and private car lines transporting live stock and (Continued on Page 2, Col. 4)

## MAY BE JAP AMBASSADOR TO U. S.

Minister Hick and his daughter.

It is rumored that Mr. Hick, Japanese minister to Stockholm, will be the next ambassador to this country from Japan. The photo shows the Jap diplomat and his daughter, who, because of her father's office, will be a member of the diplomatic society circles at Washington if he becomes ambassador.

## POLK WILL SAIL FOR FRANCE ON JULY 21

Washington, July 11.—Under Secretary Polk of the state department will sail for Paris July 21 to become head of the American peace delegation, succeeding Secretary Lansing who is expected to return to the United States on July 19. Before sailing Mr. Polk expects to confer with Mr. Lansing at New York.

## R-34 MAKES 1300 MILES IN 24 HRS.

London, July 11.—The dirigible R-34, speeding eastward across the Atlantic at 12:30 o'clock Greenwich time today (8:10 a. m. New York time), reached 46 degrees, north latitude, 39 degrees 50 minutes, west longitude, approximately 1500 miles from her starting point.

In the first 24 hours of return flight across the Atlantic from Montreal, N. Y., the dirigible R-34 covered 1300 miles, according to advices received here.

## GOVT. HOLDS BIG SURPLUS OF FOOD

Tells Congressmen Surplus  
Could Have Been De-  
clared in February Held  
Up By Baker.

Washington, July 11.—General March, chief of staff of the army, told a house sub-committee on war expenditures today that the war department's declaration of surplus food stuffs could have been made in February instead of May and that on July 8, the declared surplus of food stuffs amounted to \$121,000,000.

Chairman Reavis in questioning the general contended that delay in declaring the surplus had resulted in great loss to the government and had deprived the public of foods which there was great need.

In a statement filed by General March the surplus of food stocks was given as follows:  
Corn beefs, \$24,000,000; lard, \$23,600,000; meat loaf, \$20,500,000; fresh frozen beef and poultry, \$20,000,000; corn beef hash, \$10,000,000; canned vegetables, \$23,000,000.

Chairman Reavis wanted to know who was responsible for the delay in declaring the surplus, without which vast stocks could not be put on the market. "I thought you realize the distress caused by the high cost of living," the chairman asked, "and do you think it necessary or good business to hold meats for the time the department has held them without saying a surplus existed, which would mean turning this loss for the domestic trade?"

It was a fair criticism, General March replied, and the sustenance branch of the quartermaster's corps had been overworked, adding that in his opinion a surplus report could have been prepared safely in February.

The attitude of Secretary Baker, he said, had been to keep the market from being flooded with a great quantity of products all at once.

"There never was an information on the secretary's part," General March said, "to sell these foods for export other than for domestic use."

## WHITES BURN NEGRO HOMES

Gun Battle Follows Effort  
To Apprehend Man Who  
Published Statements  
Against White Girl.

New York, July 11.—Four whites who were in a gun battle with negroes today upon a street in the city were arrested and taken to the police station. The whites were charged with burning negro homes.

The fight between the whites and negroes today followed the publication of statements against a white girl by a negro man.

The whites were charged with burning negro homes.

## SENATORS SQUARE AWAY FOR FIGHT ON RATIFICATION

Contest Over League Cove-  
nant Is Expected to  
Last For Weeks.

COMMITTEE ON FOREIGN  
RELATIONS MEETS MONDAY

Its Action On Basis of Study  
of Treaty, Awaited  
With Interest.

Washington, July 11.—With the senate in possession of the peace treaty and its League of Nations covenant, but with sessions adjourned until Monday, advocates and opponents of the league today began preparations for the ratification contest which is expected to engage the attention of the senate for weeks.

Both sides were expected to hold formal preliminary conferences today preparatory to the senate meeting Monday to agree on the basis for the study of the covenant and its ratification. The committee is expected at its meeting Monday to agree on the basis for the study of the covenant and its ratification. The committee is expected at its meeting Monday to agree on the basis for the study of the covenant and its ratification.

## CRIME TO OVERDRAW ACCOUNT AT BANK

Columbus, July 11.—If you overdraw your checking account in any Ohio bank today, or any time hereafter, the check itself is prima facie evidence of attempt to defraud, and the crime you have committed is a felony, laying you liable to a term in the penitentiary. The new provision became effective today.

## ALLIED WARSHIPS ORDERED TO FUME

Paris, July 11.—Three allied warships, one each from the American, British and French navies, have been ordered to proceed to Fiume where there have been disorders recently between Italian troops and other elements in the forces of occupation. The situation at Fiume however is reported to be more quiet.

## BRIDE'S MOTHER KILLS SON-IN-LAW

Fires Revolver Bullet Into  
His Heart Half Hour Af-  
ter Marriage Ceremony.

Bluffton, W. Va., July 11.—Roy Willard, 29, is dead today, murdered, the police say by his mother-in-law, Mrs. W. J. Taylor, half an hour after his wedding late yesterday. Mrs. Taylor is in jail and refuses to talk of the crime. The bride's father, sister and a number of friends who attending the ceremony, witnessed the tragedy which occurred in the home of the Rev. J. B. Simpson, the officiating minister. According to the police, the marriage certificate was sent to the bride's mother, who had objected to the match, a few minutes after the ceremony. Armed with a revolver, Mrs. Taylor is said to have appeared on the scene and opened fire. One of the six shots pierced Willard's heart.

## BURLESON'S NAME FIGURES IN CASE

Fight on Comptroller Wil-  
liams Reveals Postmaster  
General In Roll of Media-  
tor In Row.

Washington, July 11.—Postmaster General Burleson's name was brought in today in school of the row between the Rices national bank of this city and John Skelton Williams, comptroller of the Federal Reserve bank, in the fight on Williams' confirmation before the senate banking committee.

J. J. Darrington, one of the bank's directors, testified that letters signed by officers and directors of the bank regarding charges of collusion and malfeasance in office by Williams and former Secretary McAdoo, as a result which the bank's charter was renewed, were framed at a conference between himself, McAdoo and Burleson with the postmaster general acting as mediator between the comptroller Williams and the bank's officers.

The fight between the treasury and the bank in 1916, culminated in a law suit in which a variety of charges and counter charges were made, the comptroller charging the bank's officers with malfeasance and the bank charging Secretary McAdoo and former Secretary Williams with seeking to wreck it for personal ends.

Financial transactions in which Mr. Williams as a national financier was concerned with the Rices National bank of New York were also charged in the suit. Williams made a full statement to Governor W. F. Todd.

# KIWANIS BEST IN FIRST GAME WITH ROTARIANS

Woodward's Big Leaguers  
Defeat Willert's Rotes  
By 9-3 Score Thursday  
Evening.

Manager Woodward's Kiwanis ball club drew first blood in the series of baseball games arranged with the Rotary club last evening when the Kiwanis defeated the Rotes Thursday evening at White field by a score of 9 to 3.

The game was interesting from the start and it was witnessed by some 800 spectators, partisans of the two clubs, with a large number of neutrals.

The progress of the game developed a number of surprises in that it was found that there were a number of men on each club who had not forgotten what they learned about baseball in their younger days.

Superintendent O. J. Barnes on the receiving end of the Rote battery displayed a whip in throwing to second that caused some envy. His battery mate, Karl Reinbold, got into difficulty by reason of an injured finger, which had undergone "running repairs," as the radioeders would say, to permit him to go through with the game.

The game was umpired by McCarthy and Gilmore, two Twilight league players. It was the first of a series of five games to determine the club championship between the two organizations. The next game was to have been played next Thursday evening but it is understood that a Twilight league game is booked for that night, in which case it will be postponed until the following Thursday.

The two teams lined up as follows: Kiwanis—Weaver 1f, Montgomery 2b, Scott 1b, Schmitt ss, Dickerson c, Woodward p, Passman rf, McFarland of, Wobeske 2b.

Rotary—Lytle 3b, Wright cf, White 1b, Tiemann 2b, Kahle 2b, Wilson and Warthen lf, Kemp rf, Barnes c, Reinbold and Gleichauf p, Willert, manager.

**THE IRRESPONSIBLE SPIRIT.**

There are always a lot of people who refuse to take their part in the measures necessary for the benefit of the community. You can see examples of it every day.

For instance, a driver with a heavily loaded truck pulled into Newark from somewhere the other day, stopped his machine and proceeded to deliver his stuff. It took him something over half an hour. At that time he left his motor running. That motor was needlessly wasting gasoline every minute of his stay.

If the driver noticed it, he probably argued that the gallon or two he might be throwing away would be worth but 25 or 50 cents, and that his employer would never find or know the difference.

Perhaps he was one of the men who complain about the unsatisfactory wages they earn. If so, one reason for the same is the wasteful habit of so many workers who never consider the interest of their employer, or the necessity of cooperating in community measures of economy.

And so it goes in all the policies that ought to be adopted for public benefit. A man may think that the few cents worth of gasoline he wastes are not enough to amount to anything. But if everyone wastes in the same spirit, the supply is depleted, the price is advanced, and an added item added to the cost of everyone who does business. So it is in the waste of paper, stock, food and fuel supplies and everything else the community needs, but finds scarce and high.

Whatever one does, he should ask himself the question, what would be the effect on the community if every one did the same? Not much, he has himself checked every item of waste in his own work and home, and he can consistently recommend to his employer and high cost of the essentials of existence.

**KEEPING UP IMPROVEMENTS.**  
Many people take hold of improvement work about their home places with abundant zeal in the spring, and then let those things go a little unheeded for during the summer. People who are away on vacations may forget that their home places need constant attention, if the appearance of the neighborhood is to be kept up, the ought not to go away without at least making arrangements for regular lawn mowing.

If people have planted some trees or shrubs in the spring, and every householder should have done something in this line, they probably need watering through the summer. Trees need watering for the most parts that constantly need them. If a tree shows signs of decay, it may be possible to save it by care. The flower beds will need weeding. If a little clean up work is done all the time, it will save a laborious day or two at it next fall.

**SENATE, PRESIDENT AND LEAGUE.**

(Cleveland Plain Dealer)  
The real discussion of the league of nations begins with President Wilson's presentation of the treaties to the senate. What has been said heretofore is essentially preliminary. The upper house of congress will now have before it the official texts. Opponents of the president need no longer exercise their ingenuity to get into the Record texts which the President has preferred until now to withhold from congress and the public.

President Wilson is ready for the clash of opinion, and so are his opponents. What the outcome may be depends upon many elements not yet clearly apparent. Were the vote on ratification to be taken now, enemies of the league could not muster strength enough to defeat it. Were the question of ratification to be submitted to the people now, there is every substantial reason to believe it would be rejected.

Any member of congress is, of course, privileged to conjecture what the public thinks on any subject, so long as the public has not been consulted and its decision recorded. Senators opposed to the league of nations assume to believe that, in opposing the work of the Paris conference, they are speaking for the American people. Defenders of the league have better grounds for insisting that the people favor the establishment of such a league as proposed. Feats of public sentiment, inadequate though they are, point to a popular endorsement of the proposal. In the absence of a formal referendum and such a referendum is for practical reasons impossible—one must depend upon "straws" to indicate the direction of sentiment.

Senator Hitchcock, leader of the pro-league forces in the upper house, pointed out the other day that labor, business and the church are everywhere in record in support of the league. Every labor organization, every business organization, every religious organization that has taken the trouble to act upon the proposition has endorsed the league. Mr. Hitchcock challenged his opponents, Senators Lodge and Borah, to name a single church organization which had gone on record as opposed to the league. The man from Nebraska then read into the Record a whole parcel of labor organizations in Massachusetts. Mr. Lodge's own state, which are supporting the covenant which the Knox Lodge Reed faction is trying to kill.

All this, of course, has been accomplished with the league's chief spokesman busy upon a multitude of tasks in Europe. While Mr. Wilson has been cooperating with the statesmen of the democratic powers in the effort to plan the way for permanent reconstruction for the nations of earth, senators opposed have been trying to create before hand an attitude of hostility on the part of the American people. The issue is now to be joined.

The President addressed the senate Thursday. Within two weeks, it is expected he will begin a tour of the country, even more significant in its meaning and possibilities than the tour he made in 1913 to arouse the country to the necessity of greater military preparedness to meet the new movement of war. The American people have the issue of the league of nations in their hands. There will be no will not be a league, accordingly as the people decide and make their decisions known to the senate.

**MURDERS IN MEXICO.**

(St. Louis Republic)  
It is reported that the state department has information showing that a number of Americans have been murdered in the Mexican oil fields, which are under control of the Carranza government, and that as a consequence the Carranza administration in Washington, over the consent and advice of Carranza is going to...

**"LET'S TRY IT."**  
(Brooklyn Eagle)  
In his justification of all that has been done an armistice was signed to keep the peace hereafter. Lloyd George confined himself to realism. Nor was he any too optimistic. There was nothing fanciful about his description of Europe as pecking and pecking from the effects of a blow that failed. There were and are the best of reasons why he should warn his countrymen that only the worst of their troubles are over. Never was advice better worth taking than that the spirit of patriotism be not diminished. More rather than less of it is likely to be needed.

Some, it is not all, of the fundamentalists set forth in the premier's presentation to the house of commons are directly applicable to this country. One is the utter absence of indications that there is anything in the nature of repentance in Germany.

A corollary is that Germany will refrain from "trying again" only so long as she is stared in the face by absolute reality. She will continue to obey the law only because of the fear that the hammer will draw. What, given an opportunity, Germany will do is what would be done by any furious desperado freed from restraint.

So Lloyd George argued and urged that it was not vengeance to take every possible precaution against recurrence. It is not even a mild form of reprisal to multiply the difficulties with which outlaws, potential or active, have to deal. And in the multiplication of these difficulties the interests of this country are identified with those of every peacefully inclined nation on the face of the earth. They can be neither too many nor too insurmountable.

Few will agree with the British premier's statement that the treaty would be a great achievement should it suffice to avert another great war for a generation. Presuming it to be of no greater service, all the ancient conventions thrown into the discard might as well have been observed, for the modern Magna Charta will give no safer unapproached immunity of peace if only because of what it imposes upon Germany in the matter of disarmament. It took long to create a "treaty" war machine. It will take still longer to duplicate it.

The senators who lose sight of the main purpose is commended the premier's approach. "Let's try it." Under no conditions other than these created...

**AMERICAN COAL FOR EUROPE.**  
(Pittsburgh Gazette Times)  
Additional proof of the bright prospects for our export trade in coal is furnished by the statement made in the French chamber of deputies that the government is arranging for the exportation of 1,000,000 tons of coal from the United States. In the last pre-war year France imported 17,000,000 tons of coal from Great Britain and 7,000,000 from Germany. In addition Great Britain was a large exporter to Brazil and Argentina. There is a virtual fuel famine all over Europe, and owing to the unavoidable and other causes, it is estimated that English exports will for some time come amount to only about 50 per cent of the total sold abroad in 1913-14.

It is some of the most important and unexploited fields in the United States coal can be mined more cheaply than in England, Germany or France, but hitherto exports from this country have been hampered by lack of ocean tonnage. This handicap is gradually being removed, and while ocean freight rates will remain high, there is bound to be a reduction as ships are released from use in connection with mobilization. Even taking into consideration the higher cost of production abroad, the difference in price, owing to security of supply, places the foreign markets so much above the parity of the American market that foreigners can afford to buy our fuel, a consideration of which is the contract now being negotiated by the French government.

The United States is already a considerable shipper of coal to South American markets formerly supplied by England and Germany, and there is every prospect that it will be successful in rebuilding these neutral markets, owing to our economic position.

by what were the central empires could such an opportunity have been forthcoming. From what was regarded as the visionary, the concrete has emerged. Practically all the nations of the world have become high contracting parties. And, however much the worst may be feared, hope for the best has been translated into terms to be signed and sealed and delivered.

Telephone Service.

**IS THERE WATERED STOCK?**

Is there watered stock in the capitalization of The Newark Telephone Company?

The telephone users of this city have a right to an answer to that question, inasmuch as they are called upon to pay as a part of the cost of their service, a certain rate of return upon its capitalization.

The total capitalization of The Newark Telephone Company including paid-in-premiums on stock, depreciation reserve and leased plants, is \$638,000. Fifty-sixty-fourths of the company's property is in Newark. This would give in round figures \$490,000 as the capitalization of the Newark city and suburban business. Of this amount \$70,000 is to be deducted as representing the accrued depreciation reserve and premiums paid on stock, leaving \$420,000 as the amount of investment upon which the Newark telephone users are called upon to pay interest and dividends. Of this \$420,000 about \$280,000 is in stock and bonds that draw six per cent interest and on the balance of \$140,000 a dividend of 7 per cent has been and is being paid.

The question as to whether 6 and 7 per cent is too high or not, need scarcely be considered. Any investigation of such matters will disclose the fact that these rates are, if anything, too low.

Therefore, the whole question resolves itself into an inquiry as to whether the stockholders and bond holders have actually invested as much as the sum of \$420,000 in the property of this company used and useful in the Newark district.

A not unusual and quick method of estimating the amount of investment necessary for a telephone plant is to use \$100 as the capital for each station. This would give a capitalization of \$498,000 or \$78,000 more than the capitalization of this company actually outstanding.

Our books show that our stockholders have, out of cash investments and the foregoing of dividends, invested \$550,000 in the Newark plant or \$130,000 more than the capitalization of this company actually outstanding.

We have had an appraisal made of the Newark plant and we find that its cost value was over \$510,000 and its present value about \$410,000 which is \$20,000 more than the capitalization actually outstanding.

Therefore, it is plain that the capitalization that this company is asking its telephone users to pay 6 and 7 per cent upon is very much less than the actual investment of its stock and bond holders.

There is no watered stock in the capitalization of this company.

### Stomach is Quick to Upset When School Children Are Idle

VACATION days are days of over-eating and under-exercising for most boys and girls. They loiter around nibbling at light food, unconcerned whether the fruit is green or ripe.

The result is cramps, skin eruptions, pimples, "summer colds," constipation and diarrhea. The basis of such trouble is an upset stomach, and nothing will give safer and quicker relief than the well-known Dr. Caldwell's Syrup Pepsin. It is just a combination of simple laxative herbs with pepsin, a formula evolved some 30 years ago by Dr. Caldwell himself. Syrup Pepsin is now used by millions of people and is today the largest-selling liquid laxative in the world.

DR. CALDWELL'S  
**Syrup Pepsin**  
The Perfect Laxative

### Our Boys and Girls

As the child grows older, the question of playmates and their influence is an important one. Little boys pick up most quickly desirable or undesirable habits from those with whom they come in contact. Impressions and influences received from tiny associates often penetrate very deeply, and sometimes cling to them all of their lives.

While it is often impossible for an older child to keep from undesirable acquaintances, the mother should be most particular to shield the little one from those influences which have a tendency to affect so strongly his little life. She should keep the child at home as much as possible and under her

constant supervision as much as she can. Let the mother watch most carefully the suggestions which she makes before her children. Let her ever be improving, uplifting, impressing on the children's mind those qualities she wishes them to acquire, and in almost every case, they will live up to the characters so suggested to them. It is within every mother's power, and it is her duty to make outside influences act for the child's best good.

### Every Day Etiquette

"Does a woman precede a man when going into a theater or cafe?" asked James.

"The woman always precedes the man unless it is necessary for the man to find a place for her or show her the way. When there is an usher to conduct people to their seats, the woman follows him immediately, and the man walks behind her," replied his father.

### "BEST MEDICINE FOR WOMEN"

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for women's ailments I ever saw."—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Mrs. Shaw proved the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did. Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service.

### PYORRHOEA OR DISEASED GUMS

Hundreds of Cases Here Says Dentist Don't Have Your Teeth Pulled. Make Diseased Gums Healthy and Teeth Tight With This New Prescription—Instant Relief.

A prominent New York Dentist recently discovered a new prescription—Epithol—which is so successful in the treatment of Pyorrhoea and Ringers Disease that it is sold here in Newark by T. J. Evans and other leading drug stores on an absolute guarantee to refund money if in any case it fails to correct the trouble.

If your teeth are loosening or if your gums are swelling and are sore or tender, inflamed or bleeding, spongy, or flabby, or if they discharge pus, get an ounce of Epithol today if possible and start using it right away. It seems to work like magic. Teeth tighten and the gums grow sound and healthy and the bleeding pus discharge soon stops. Fred Chapman says: "My teeth became very sore and loose, pus formed around the roots and gave me a severe case of stomach trouble. My physician asked me to have my teeth extracted. A dentist recommended Epithol, and after a short time my teeth became tight and my gums restored to a healthy condition. I recommend Epithol to any one suffering from pyorrhoea."—A.D.

PLEASANT VIEW.  
The church, Sunday school at 1:30, preaching by pastor at 2:30, subject: The Challenge of the Country Church. Junior C. E. at 8, Senior C. E. at 9, prayer meeting Thursday evening, 7:30. D. Wright, pastor.

Mr. and Mrs. Thomas Goff, Mr. and Mrs. Fred L. and Mrs. Hoffman, Mr. and Mrs. Flinnhart, all of Newark, attended the centenary of Columbus, a people of days last week, also, Rev. and Mrs. Paul E. Kemper of New avenue.

### NEW COMMANDER OF U. S. UNITS ON RHINE

Maj. Gen. Henry T. Allen has been named to succeed Lieut. Gen. Hunter Liggett in command of the "Eyes" on the Rhine, the new title of the American army of occupation based on Calais. Major General Allen formerly commanded the 9th division, composed of national arms troops from Texas and Oklahoma. He was born in Kentucky and entered West Point in 1878 from that state.

### Milady's Boudoir

#### Summer Bathing.

Salt baths for the entire body in summer are excellent desodorizers. Empty a bag of salt into the tub and bathe the body thoroughly with the salt and water, or make a strong solution in a wash basin and sponge the body surface.

Moist hands are an unpleasant affliction, and if the summer months produce this condition, adopt the practice of using a little spirits of camphor in the bath water. If the condition persists, rub into the hands a lotion made of four ounces of cologne and half an ounce of tincture of ballamonia, after ward powdering with rice powder.

Excessive perspiration of the feet is apt to produce corns between the toes in warm weather. After bathing and drying the body, powder thoroughly between the toes with cornstarch or good talcum powder. Perspiration also makes the feet so tender that they blister easily.

To ward off the danger of blistering, bath with a solution made of two ounces of bay rum and four grains of tannic acid. A very offensive odor from the feet which fails to correct itself with the most scrupulous attention to cleanliness of the body, may be mitigated by rubbing with the following compound: Powdered talcum, 5 ounces, starch, 1 ounce, and salicylic acid, 4 scruples.

Sometimes rubbing the feet with alcohol after the bath, will destroy the odor of perspiration and tends to prevent its recurrence. Don't forget that shoes, as well as hose, absorb the moisture from the feet and therefore, air them well and dust them inside with a disinfecting powder.

### LEMON JUICE

#### FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates. —Adv.

### SAM C. BROWN HAD VERTIGO AND WOULD FALL TO THE FLOOR

Lost consciousness and his family would have to work over him for hours.

Many wonderful endorsements have been given Dremo, but what is probably the most remarkable is the one given recently by Sam C. Brown, of 1032 Argyle Avenue, Baltimore, Md. He says:

"For years I suffered with something like vertigo, and had a dizzy, swimming sensation in my head, and of all the people I ever saw or heard of, with this trouble, I never knew of a case as severe as mine. When one of these spells would strike me, I would lose consciousness and fall to the ground. I would have to be stripped and rubbed for hours, and my folks thinking all the time that every breath would be my last. I don't know what brought on these attacks, but I also suffered with stomach and bowel trouble, and it might have been due to that. My bowels would frequently lock, and I would go four or five days in this condition. No one on earth ever knew how I suffered. I myself, cannot describe it. I tried to describe it to the doctors, but they didn't seem to understand. After consulting several and taking their medicines, I was told the only chance I had to live was to build up my constitution, so I could wear it out. That is a sketch of my condition when I began taking Dremo. I am really unable to tell how much good the first bottle did me. I haven't had a single attack of vertigo since, my bowels move regularly and normally, my appetite is good and my food digests perfectly. The nervousness has disappeared, and I am getting stronger and gaining flesh every day, and to prove to you what I think of Dremo, if I knew there was no more to be had, I would not take \$100.00 for this bottle I have just bought."

Mr. Brown, the well-known Dremo expert, has headquarters at Evans' Cur Rate Drug Store, to meet the local public and explain the merits of this great remedy. See him today. Adv.

## LICKING WHEAT CONDITION LOSES SIXTEEN POINTS IN MONTH OF JUNE

Columbus, July 11.—"Due largely to lodging and smut, the Ohio winter wheat crop lost four points in condition during June," states J. L. Cochran, in charge of the crop reporting service for Ohio, "and the July 1 forecast is for a crop of 51,445,000 bushels, as against 56,341,000 bushels reported on June 1. Adverse weather conditions during June reduced the prospective spring wheat yield from 670,000 bushels, reported on June 1, to 620,400 bushels, the July 1 estimate."

Outs, also reflecting the hot, dry weather during a part of June, show a decrease of three points in condition during the month and the present forecast is for a crop of 56,791,000 bushels compared with the June 1 forecast of 58,505,000 bushels. Despite the wet weather during the early part of the corn planting season, planting continued until an average of 18,180 acres of last year was in. Then "growing weather" came on, the handicap of a late start was to a considerable extent overcome, and the condition of the crop on July 1 was 89, four points better than the ten-year average. This forecast of a crop of 148,180,000 bushels, an increase of 14,955,000 bushels over the 1918 crop.

In the central Ohio district conditions are much better, the report shows. In Licking county, however, the figures indicate that wheat condition lost 13 points during the month of June, dropping from 106 to 93. Other grain and

hay crops fell off accordingly. The figures for the district follow:

Corn—Condition per cent July 1: Delaware, 101; Fairfield, 96; Fayette, 94; Franklin, 93; Knox, 90; Licking, 93; Madison, 102; Marion, 90; Morrow, 89; Pickaway, 96; Ross, 92; Union, 87. Average, 94.

Wheat—Condition per cent July 1: June 1: Delaware, 103; Fairfield, 108; Fayette, 108; Franklin, 103; Knox, 102; Licking, 98; Madison, 116; Marion, 94; Morrow, 104; Pickaway, 100; Ross, 104; Union, 95. Average, 102-108.

Oats—Condition per cent July 1: June 1: Delaware, 98; Fairfield, 99; Fayette, 100; Franklin, 91; Knox, 91; Licking, 84; Madison, 99; Marion, 90; Morrow, 92; Pickaway, 91; Ross, 89; Union, 90. Average, 90-102.

Rye—Condition per cent July 1: June 1: Delaware, 103; Fairfield, 100; Fayette, 103; Franklin, 99; Knox, 100; Licking, 96; Madison, 112; Marion, 90; Morrow, 90; Pickaway, 96; Ross, 96; Union, 88. Average, 99-102.

Hay (All)—Condition per cent July 1: June 1: Delaware, 96; Fairfield, 92; Fayette, 100; Franklin, 88; Knox, 89; Licking, 86; Madison, 90; Marion, 90; Morrow, 89; Pickaway, 98; Ross, 89; Union, 94. Average, 89-94.

## URGES SOWING OF PURE SEED WHEAT

### Farm Bureau To Conduct Campaign In Licking Co. For Better Grain For Seed.

"July begins another crop year in small grains. We are naturally interested just now in marketing this year's abnormal wheat crop at prices based on the government guarantee," says a statement issued by county farm agent L. M. Mowbray. "Farmers are threshing and in most every case so far as I can learn are marketing their wheat directly from the machine. The prices paid by dealers seem to be very satisfactory. We are noticing that farmers short on storage room are doing more stacking than usual and that means they will not have to rush it on the market so as to cause a blockade. It is certainly interesting to note how well farmers are studying the situation. So much for this year's wheat harvest."

"Looking ahead to 1936 and its bearing on seedings next fall, wheat growers in planning their acreage should get a close understanding of conditions. We must remember there will be no government guarantee on wheat harvest next year. Next year's wheat crop will be governed by world influence and a wide open market. Our crop raised in the U. S. will then again be obliged to compete with the surplus from the south, Argentina, Argentina and Australia—headed toward western Europe. Undoubtedly England, France, Italy and Spain will have a large acreage; northern Europe has this spring if reports are correct put in good crops. It is only fair to presume that since peace has come Germany by another year will be able to produce large quantities of grain, especially rye. All southeastern Europe and especially Roumania and Hungary may be big wheat producers. It is even possible that Russia may again be a factor in the export trade in both wheat and rye by another year. There is belief in some quarters that huge quantities of wheat from surplus countries will be seeking a market outlet in western Europe, even long before the 1919 crop is all placed."

"Summarized world condition seem to indicate that once the 1918 wheat crop is all marketed under government guarantee, home growers there after must probably expect a lower price level; even though there is the slightest sign in the sky to hint that this price will approach the before the war low prices. With this idea in mind the farm bureau is planning to put on a drive in the county for 'better seed wheat.' We want to increase our ten year average and to do this there must be less rye, cheat, cockle and mixed wheat sown. Begin now to look about your neighborhood for some pure, clean seed wheat to sow this fall."

## "Completely Discouraged"

Is the feeling and plaint of women who are "run-down" so low that work drags, head aches, back aches, dragging feelings, dizziness, and every little thing annoys and "everything goes wrong."

Look the other way just a minute and see what Dr. Pierce's Favorite Prescription has done for more than a million women in the last fifty years.

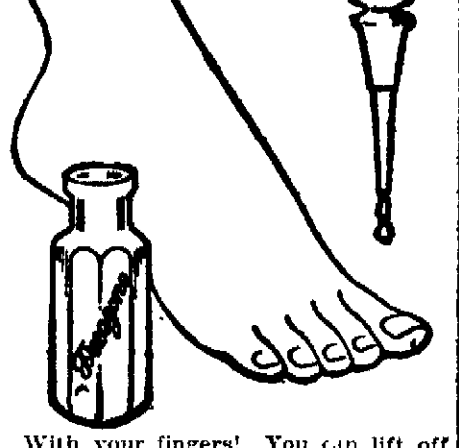

What it has done for others it can do for you. It is a long hand to lift up weak, tired, overtaxed women—that's what you'll find in Dr. Pierce's Favorite Prescription. It gives you just the help that you need. To be had in liquid or tablet form. Tablet form, 60 cents, at all drug stores.

It is a medicine that's made especially to build up women's strength and to cure women's ailments—an invigorating, restorative tonic, soothing cordial and bracing nerve; purely vegetable, non-alcoholic, and perfectly harmless.

Defiance, Ohio—"For some time I suffered with woman's weakness which caused me to become all run-down. I was so weak I could scarcely get around and I was extremely nervous. I was completely down and when I began taking Dr. Pierce's Favorite Prescription and it not only built me up in health and strength but so completely cured me of my feminine trouble that I have never been bothered since. I consider it the very best medicine a woman can take." Mrs. E. Mowbray, 103 Summit St.

## Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

## SURE HE OWES TO THE PUBLIC TO TELL THE FACTS

### Rural Router Wants Fellow Sufferers to Know About Nerv-Worth's "Wonderful" Merits.

This entirely new statement is one of the most striking tributes ever paid to a medicine. Observe that Nerv-Worth did for him what several doctors found it impossible to do:

Dear Sirs—I feel it my duty to speak a word in behalf of your wonderful medicine (Nerv-Worth). I have suffered with a bad stomach trouble for two or three years. Could eat nothing without suffering with palpitation of the heart, smothering—and nerves in a terrible state. I tried five or six different doctors, but could get no relief whatever. Seeing testimonials for Nerv-Worth in a paper I decided to try a bottle. I felt like a new man after the first bottle. I can truthfully recommend Nerv-Worth for family medicine. It would not be without it in my house.

Very truly yours,  
C. E. LEE,  
Parkersburg, W. Va., Route 3.

T. J. Evans sells Nerv-Worth in Newark. Your dollar back if this famous family tonic does not benefit you. Neighboring agencies: Utica Drug Store, Utica; C. S. Howard, Johnstown; W. P. Ullman, Granville. Adv. 7-9-11

## YANK PRISONERS TRY TO BLOW UP MUNITIONS

Alva Dean Watson, son of Mrs. Herbert Watson, formerly of Newark, who has returned to his home in Zanesville, after being a prisoner in Germany, tells some interesting stories.

Watson, who served with the 28th division, was captured at Chateau Thierry, July 15, and spent four months in a German prison camp. After the capture of the division, he was sent to Switzerland and from there to France. He was wounded twice and was heavily gassed.

One of his most interesting experiences was that of a soldier, where, with other American prisoners, he was forced to unload huge shells from railroad cars. The Americans received no compensation for their work. The Germans were obliged to remove the shells from the dangerous work.

## ENGLAND SEIZES KING FERDINAND'S FORTUNE

London, July 11.—So far, King Ferdinand of Bulgaria has been living in London since the war was declared. The king's fortune was seized by the British government yesterday. The king's fortune was valued at \$2,000,000. The king's fortune was seized by the British government yesterday. The king's fortune was valued at \$2,000,000.

## SOCIAL AFFAIRS

On Thursday afternoon at her home in Fulton avenue Miss Fay Emery entertained with a garden party. During the afternoon the guests discovered an interesting inscription carved upon a tree which announced the engagement of Miss Emery to Mr. J. H. Barcroft of Akron. The wedding will take place August 28, which will be the 30th wedding anniversary of Miss Emery's parents.

Miss Emery is the daughter of Dr. and Mrs. J. R. Emery. She is a graduate of the Newark High school and also of Ohio University. For the past year she has been teaching home economics in the Johnstown high school.

Mr. Barcroft is the son of Mr. and Mrs. K. A. Barcroft of Cridley Avenue. Since returning from France and receiving his discharge in February he has been located in Akron.

Miss Emery's guests were: Mrs. Horace E. Cromer, of Potosi, Va.; Mrs. Clifford Campbell of Junction City, O.; Miss Lola Lake of Johnstown, Md.; Mabel Celia Fouts, Fred Hawkins, Mabel Laffin, Earl Martin, James Fawcett, Jr., Bill Lumm, Misses Ruth Hollar, Mabel Lundgren, Isabelle Somers, Mildred Huston, Emily Hall, Frances Stevens, Lillie Boyd, Catherine Stoepler, Margaret Stoepler and Master Frederick Hawkins, Jr.

Mr. and Mrs. Quincy Williamson, have returned from a wedding trip and are living in Granville. The marriage of Miss Jesse Grunstaff of West Locust street and Mr. Williamson took place on July 4.

Mrs. W. C. Miller and daughters Martha Grace and Virginia and Mrs. W. H. Mazy and daughter Thelma will be hostess at a tea at Moundbuilders' Country club on Saturday afternoon.

## PERSONAL

E. F. Maloney of 56 Mill street, son of William J. Maloney has arrived in New York and is stationed at Camp Merritt, N. J. He went overseas with the 33rd Infantry and was later transferred to a supply company.

Ernest Wolverton of 62 Spring street, after an absence of 14 months overseas with the 109th machine gun battalion, returned Thursday evening.

Mrs. E. M. Earnshaw of East Main street has received a telegram from her husband, who has arrived in New York from overseas. He is stationed at Camp Mills.

Miss Adelaide Reilly has returned to her position at the industrial commission Columbus after a vacation of several weeks spent at her home in Buena Vista street.

Mr. and Mrs. Stewart Caffee, 71 Wilson street, have gone to Buckeye Lake for a week's outing.

Dr. and Mrs. J. A. McCowan of Marietta, who have been visiting Dr. McCowan's sister, Mrs. A. S. Stephan, have returned home.

Mrs. H. R. Emery has returned home after an extended visit with her son Elliott at Camp Meade, Maryland; relatives in Pennsylvania and her son Carl at Akron.

J. R. Barcroft of Akron, arrived in the city on the fourth and spent the week-end with friends and relatives. The following cablegram has been received from Elliott Emery, at Breckinridge, "Arrived O. K. July 1st; feeling fit." Emery enlisted in the replacement unit May 5th and spent the intervening period at Camp Meade, Md. Miss Lola Lake of Johnstown, is the guest of Miss Fay Emery in Fulton avenue.

Earl Erier of Columbus is a visitor in Newark for a few days.

Miss Katherine Frye of the public service office is spending the day in Columbus attending the centenary. Mrs. Harry Fox and daughter Dolores of Baltimore, are the guests of Mrs. Edgar Follett in 136 West Main street.

## OBITUARY

**Waldo Burdette.**  
Waldo Burdette, the 9 year old son of Mr. and Mrs. Robert Burdette, died at the home in Hebron Thursday evening at 10 o'clock of Bright's disease. The funeral services will be held at the home Sunday afternoon at 2 o'clock. Elder Sturkey of Newark officiating. Interment at Hebron.

**Albert Yearin.**  
Funeral services for Mr. Albert Yearin were held this afternoon at 1 o'clock in the home in Tuscon was street and burial took place in Cedar Hill cemetery.

**Mrs. Sarah West.**  
Funeral services for Mrs. Sarah West who died Thursday in Columbus will be held Saturday morning at 10:30 in the home, 35 Riley street. Rev. Mr. Kemp will officiate and burial will be made in Cedar Hill cemetery.

**Mrs. James Colville.**  
The funeral of Mrs. James Colville was held this morning at 10 o'clock in the home near Run Rock and burial was made in Mt. Zion cemetery.

**William H. Parrish.**  
William H. Parrish, 52, Pennsylvania, died suddenly of a stroke of apoplexy, Monday June 30, at Carnegie, Pa. He was aged with an infirmity on the street and was in a tombstone, to which it was moved. His only son, William Parrish, Jr. after leaving Newark he established and developed Roslyn Park near Carnegie which is one of the prettiest residences in that region. He is survived by his wife, one son, a daughter, one brother, and two sisters. He was born in Charlottesville, Va. He formerly was Miss Nellie E. Moore. Funeral services were held Sunday and burial was made at Carnegie.

## THE COURTS

**Mrs. Hughes Gets Divorce.**  
The divorce case of Little M. Hughes vs. Fred A. Hughes, heard in probate court this morning, and a decree of divorce will be granted in 60 days to the plaintiff. The divorce petition charged gross neglect of duty, and misconduct on the part of the defendant who was traveling with the court. Mrs. Hughes was given the divorce money and the custody of the children.

**Divorce is Refused.**  
In the divorce case of Arthur B. Bishop vs. Sarah A. Bishop, heard in probate court Judge Hunter refused the petition and refused to grant a divorce.

Let's win the Victory Shaft. Buy W. S. S.

3,000,000 People Use It Annually

## Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.  
The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.  
Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

## GRANVILLE

(Special to The Advocate)  
Granville, July 11.—Mr. and Mrs. Daniel Churton and little son of Huntington, W. Va., are guests in the home of Rev. Brezka.

Miss Edna P. Riggs of Mammouth College, Illinois, is visiting her uncle and aunt Mr. and Mrs. T. G. Baker.

The picnic of the Travelers' club, was held at the home of Prof. Ebaugh. A few minutes were devoted to business at which time action was taken to hold the meetings of the club beginning in September 1919, in the women's room on the second floor of the municipal building. Harold Scott, who before his army service was a teacher at Roberts college, Constantinople, read a paper telling of his personal observations of life in Turkey. The paper was discussed at length. Dinner was served by the social committee, the club members having brought baskets.

Miss Sara Stewart is the guest of Miss Laura Green.

Mr. and Mrs. Fred McCullum are the parents of a son, born July 10. Robert Nixon, who has been with the ambulance corps at Camp Taylor, Louisville, Ky., returned to his home in Granville Thursday.

Miss Esther Nixon was married in May to Mr. Dixon, an Englishman of Kobe, Japan. Miss Nixon was a member of the class of 1911 D. C. After traveling several years she spent a year in the training school of the National Y. W. C. A. of New York and was appointed in the summer of 1917 as a secretary for Japan. She spent a year in Tokyo studying the language and teaching English and was then sent to Kobe where she met Mr. Dixon. The wedding took place in the Union church in Kobe, the ceremony being performed by Rev. Dr. Parsons, president of Parsons college, Fairfield, Iowa, who while on a leave of absence, is supplying the church in Kobe. About 100 friends, both Japanese and foreigners attended the reception following.

ing the ceremony. The reception was given by Mr. and Mrs. J. Grover Sims, friends of Mr. Dixon. Mr. Dixon is a business man of Kobe, being engaged in manufacturing.

## ADVERTISED LETTERS.

Mail of foreign origin advertised at Newark for the week ending July 10: Bayne, Mrs. Walter, 50 24th street; Clark, Mr. J. B., (no address); Coffman, Mr. Wm. (no address); Cosgrove, Mr. Chas., care O. S. Tel. Co. Chermile, Setra Nivola, Box 432; Dobes, Dumitru, Box 304; Gioanni, Pale, Box 722; Hemrichhouse, Franc D., 68 Penny avenue; Jones, G. W., (no address); Ledes Mfg Co. (no address); Liovanini, Pace, Box 422; Limenstedt, Mike, Box 446; Cahas, Dumitru, Box 304; Traicoff, Atse, 32 Fourth street.

## F. T. MERCER, Postmaster.

## HOG RUN CHURCH.

Primitive Baptist church at Hog Run—Preaching services, Saturday, at 2 p. m.; Sunday at 10:30 a. m. and 7:30 p. m. Corvin Dove, pastor.

## BOWLING GREEN.

Near Weiant's, Paul E. Kemper, pastor. Sunday school, 1:30 p. m.; worship, 2:30; theme, "The Riches of Grace."

## Valuable Discovery.

It has been found possible by aviators to use magnetic compasses by mounting them on horsehair cushions, which counteract the vibration of airplanes.

## Common Gain.

The cause of freedom is identified with the destinies of humanity, and in whatever part of the world it gains ground by and by, it will be a common gain to all those who desire it.—Kossuth.

The home of Brigham Young, father of polygamy in Mormonism, still stands near Seneca Lake in the Finger chain of Central New York.

# 1-4 OFF Lily of France Corset Sale

THE splendid fitting qualities of Lily of France Corsets, their perfection in every detail of fit and finish, together with the beautiful materials in Brocades and Coutils so in order to get ready for our fall line we find it necessary to have frequent stock turnovers. Sizes from 26 to 36. Both medium and low bust. We deem it a privilege to fit you.

## BIG AUTO RACES

Sunday, July 13th

AT THE NEWARK FAIRGROUNDS  
Here is The Program:

EVENT NO. 1—Elimination Race.

EVENT NO. 2—

CARS	DRIVERS
MAXWELL	PAWSON
FORD	LOWELL
CHEVROLET	COSINSO
FIAT	SULLIVAN

EVENT NO. 3—Cars limited to 3000 inch piston displacement.

CARS	DRIVERS
FICINONI	FIELDING
DUSY SPECIAL	RHODES
HUDSON	LICHLIDER
MERCER	VAROGUE

EVENT NO. 4—None winners in events Nos. 1 and 2.

EVENT NO. 5—Winners of event No. 2.

EVENT NO. 6—Australian Pursuit Race.

COME ONE — COME ALL

General Admission... 50c Races Start at 2.30

## RHOADES' "DUSY SPECIAL" IS CENTER OF INTEREST IN SUNDAY'S RACES

ERNEY RHOADES.

Interest in the auto races Sunday at Mountbuilders Park, centers in the 150-horsepower "Dusy Special," driven by Erney Rhoades who has recently been discharged from government service in the motor manufacture division. Rhoades will endeavor to lower the track record for Licking county. Those who are familiar with the power of his car and the daring manner in which Rhoades pilots the monster around the track are willing to grant that he has a splendid chance to get away with the job.

With ten fast cars and daring drivers entered in the big automobile derby covers of the motor racing game are expecting some rare sport. The track will be in the best condition for the event. The dust will be laid, the track rolled and hardened until it will stand up under the terrific speed which the cars will maintain.

When adequate street car service to handle the crowds expected the details for the event are complete.

As no ticket agents are being made for parking automobiles for visiting spectators, inquiries for tickets from Zanesville, Coshocton, Mount Vernon and Columbus and its vicinity, should be made at any previous racing event here.

As has been announced, each driver will undergo a physical examination by a Newark doctor, before he is permitted to enter the races. This doctor and assistants, with adequate ambulance service, will provide for emergency treatment in case of any mishaps on the course.

## NATIONAL WOOLEN MILLS PURCHASES PARKERSBURG BLDG. FOR FACTORY SITE

John A. Ryan and Clyde C. Boso of The National Woollen Mills Company recently purchased the large Colonial Hotel building corner Sixth and Avery streets, Parkersburg, W. Va., which will be used as a factory by the company.

The building is a four story structure 70x90 feet and it is the intention of the new owners to make it strictly fire proof and add two additional stories. The interior will also be remodeled and when completed it will be one of the most modern factories to be found for the manufacturing of men's clothing.

The National Woollen Mills have a branch store in Newark at No. 12 North Park Place. Mr. C. H. Bentz is manager of the local store and under his successful management the store has more than doubled its volume of business. Mr. Bentz is a pleasing gentleman who is interested in the future welfare of Newark and his slogan "satisfaction to all customers" has won for him a large patronage in the local field.

## Endurance.

Endurance, not fleetness, wins the race. Never give up. Keep pegging away even though everything looks hopeless. Many a man has failed to achieve both fortune and fame because he lost courage just as he was within reach of them. What you desire may be only one step ahead. Keep going.

## Optimistic Thought.

Virtue and goodness are confined to no station.

# Centenary Celebration Columbus

(OHIO)  
POSITIVELY CLOSES  
SUNDAY, JULY 13th

Written by William C. Freeman, Associated with Paul Block, Inc., New York, Chicago, Detroit, Boston.

One of the several policemen on duty at the State Fair Grounds where the Centenary Celebration has been in action since Friday, June 20th, day and night—remarked that he did not know why he and other officers had been assigned to this work because he said there was really nothing for him and the other officers to do—except perhaps to assist him who might be overcome by the heat.

Quite a tribute to the behavior of a great crowd of people—averaging over 40,000 a day since the Centenary Celebration opened—is it not?

The City of Columbus, with its 250,000 population, could not sustain an average attendance in excess of 40,000 daily—therefore, many thousands of visitors had to come and did come from all sections of the country.

As an illustration from the train from Chicago to Columbus, I met a man and his wife and three children, who lived in North Dakota. They were on their way to attend the Centenary Celebration. As a matter of fact I met people from practically every state in the Union.

The great crowd—over 120,000—that attended the Centenary Celebration on July 4th expressed itself as mightily pleased that the attendance exceeded that at the Prize Fight, Toledo, by more than 70,000.

The world sure does move onward, and it seems to be moving in the right direction.

The most remarkable scene I have ever witnessed was that on July 4th and 5th when thousands upon thousands of people patiently stood in line under a broiling sun waiting for an opportunity to purchase an admission ticket to see the GREAT PAGEANT, written by Rev. Dr. J. E. Crowther, and wonderfully staged.

Another remarkable thing about this Pageant is that the story it tells is founded on life as portrayed in the Bible—and yet thousands of people wanted to see it and did see it, filling the great Coliseum, with its 7,500 seating capacity, every time it was presented.

Another outstanding feature of the Centenary Celebration is that it assembled so many striking attractions that D. W. Griffith—one of the Masters in Motion Picture film—kept a force of experts at the State Fair Ground for more than two weeks taking motion pictures that will introduce portions of movie picture houses all over the world to the really wonderful events that were a daily part of the exposition.

The Victory Parade on the evening of July 4th in which over 8,000 people took part was a realization of a dream of ten years ago when the managers of this Centenary Celebration conceived the idea that it would be an inspiring event to show the people of America what his missionaries in foreign lands.

It is a striking statement that there were so many people in this parade—remember the number, 8,000—as the Methodist missionaries had conducted during their fifty years of their efforts in heathen lands.

And now it is equally striking to say that converts are made at the rate of 10,000 a month through this one great agency alone.

And think of 50,000 people witnessing this parade! Think also of 7,500 people piling into the Coliseum to see the big Pageant at the same time! Think also of the big tent being filled to capacity at the same time when people went to hear "Bob Jones," the Great Southern Evangelist! Think also of the moving picture houses filling up with interested and eager crowds at the same time!

But the one great outstanding feature that towers far and above all others is this:

The Centenary Celebration has brought together in a splendid band of unity the North and South Divisions of the Methodist Church which have been separated in their activities for many years.

And this fact, coupled with the spiritual effect in rich measure to the Centenary Celebration and its big motive power in world reconstruction is the representative of other nations by the representatives of other nations.

A celebration that started on Friday and ended on the 13th that started to advertise on Friday and ended on the 13th—centenary of the Methodist Church—has come out with flying colors and a glorious success.

2054 PHONES 1853  
Day and Night Service.  
Bay W.N.S. and win the Victory Shaft

The First Spiritualist church will hold services in the Woodmen hall Sunday evening at 8 o'clock. F. C. Coney, pastor. 7-11-12

**Calender Cleans Clothes Clean.**

**Derailment Delays Train.**  
Two cars loaded with gravel left the track Thursday evening at Canastota. The wreck train was called out and it took two hours to clear the right of way. Train No. 45 left here several hours late as a result of the wreck.

**Reidel Gets Discharge.**  
Arthur Reidel of Wilson street, who has been in the navy for some time has received his discharge and returned to Newark. He attended the Harvard Radio school and was transferred to the Great Lakes naval station when the Harvard school was given up by the government.

**Will Report Convention.**  
The various sessions of the state Christian Endeavor convention recently held in Cleveland will be reported at the Central Church of Christ Sunday evening at the regular church hour. This is the largest state convention ever held. Many prominent speakers were present. A cordial invitation is extended to all.

**Gets Life Certificate.**  
Miss Fay Emery of Fulton avenue has just been granted a life certificate to teach home economics in the state of Ohio.

**Twins Make 5th Generation.**  
Mr. and Mrs. Ralph Meyers announced the birth of twin daughters at their home in Kinder avenue, Thursday evening. This is the fifth living generation in Mrs. Meyers' family. She was Miss Helen Heim of this city and Mr. Meyers is employed at the local postoffice.

**Underwent Serious Operation.**  
Miss Anna Hohl, a nurse located in Cleveland, underwent a serious operation this week, but her condition is improving. Her brother William Hohl, Jr., and sister Miss Helen Hohl have been with her.

**Dislocates Shoulder.**  
Edward Kibler, Jr., had his left shoulder dislocated today. He slipped and fell in the court house this morning throwing the shoulder out of place. Condition improves.

The condition of Mrs. Eva Dial who was found seriously ill in her home Wednesday evening is better today.

**Cries Wonderful Canoeists.**  
"The Ojibway, the Cree and the Montagnais are the most wonderful canoeists in the world," says S. E. Sangster, writing of "The Woods Indian" in Boys' Life. "They possess a sixth sense in rapid-running and if they say 'run it' you can safely lay a bet at odds that they will run it and come through dry—even through water the mere glimpse of which makes your hair stand up and sends chills chasing up and down your spine."

**Death.**  
Death is nothing more or less than slipping back into your own subconsciousness, and so becoming greater and finer and more active—more useful, too—and with grander powers than we ever had in our limited imperfect bodies. Life is nothing but an episode in our universal life. . . . Death is just a change of direction then, really; that's all.—From "The Promise of Air" by Algernon Blackwood.

**United States of the World.**  
The day will come when we shall realize not only the brotherhood of individuals but the essential unity of all mankind. All are brothers; all children of the same father. The barriers which divide nations are artificial. I believe the time is at hand when these barriers will fall like the walls of Jericho, before love's trumpet summons, when the banner of brotherhood and freedom will float forever over a new federation—the United States of the World.—Tolstoy.

**Find the Joy in Things.**  
Do not let the things that were made for your service crush out your life with their weight. Life is full of sunshine, and beauty, and love; birds sing and flowers bloom for us as well as for others. Do not shut your eyes to the beauties of life. There is beauty in a well-scrubbed floor, there is joy in a well-cooked meal if we are not overburdened. But there is no joy in anything unless we open the door of our hearts and let in the sunshine and dispel the gloom that we have created for ourselves.—Exchange.

**Find Indian Stone Celts.**  
In an article on Indian stone celts in the Wisconsin Archeologist, Charles E. Brown, chief of the state historical museum, describes the various classes of celts, or stone hatchets, and in what Wisconsin localities many of them have been found. Jefferson county has been the source of many celts, and other counties in which they have been found are Dane, Calumet, Brown, Waupaca, Walworth, Winnebago, Waukesha and Washington.

**Spasmodic Sermon.**  
By this stage of eternity the tooth of time must show some evidence of decay.—Indianapolis Star.

Read Advocate Want Ads tonight.

**Not a bit of this splendid food is wasted—it's eatable to the last atom.**  
"There's a Reason for Grape-Nuts"

**Not a bit of this splendid food is wasted—it's eatable to the last atom.**  
"There's a Reason for Grape-Nuts"

## PUMPKIN PIE ALWAYS GOOD

Therefore Observer Wants to Know Why It Has Not Been Served in the Springtime.

A mere man asked me the other day, "Why doesn't the housewife make pumpkin pies in the spring when fresh eggs are cheapest?" Why, indeed? The fact is we are creatures of habit, and are inclined to follow traditions in our cooking. Our foremothers made pumpkin pies in the fall because the pumpkins are ripe at that time. She continued the pie through the cold weather as long as she could keep pumpkins in her cool cellar. Thanksgiving and Christmas dinners always included pumpkin pie. The pumpkin supply was exhausted about this time, and therefore no more pumpkin pies were possible until the next autumn.

Times have changed. Now we have the pumpkin in sanctuary cans all ready for the pie, and we can use it at any time we please. Pumpkin takes the place of fruits, which are already scarce at this time goes on.

The springtime is the time for pumpkin pies—eggs and milk are then most plentiful, and therefore cheap. It is the time for custards. Our grandmothers established that custom, too. Pumpkin pie is after all a custard in which the pumpkin pulp predominates, therefore belongs by right in the spring and summer.

This is just one more instance in which we should drop the traditions which are outgrown and adopt a custom suited to our times.

Our family is sure to be surprised to find the luscious pumpkin pie served for dessert, and undoubtedly, like Oliver Twist, it will ask for more.—Exchange.

## SAW MERIT IN TRANSLATIONS

James Russell Lowell Pointed Out How They Come to Serve a Very Definite Purpose.

I would have a public library abundant in translations of the best books in all languages, for, though no work of genius can be adequately translated . . . yet some acquaintance with ancient and foreign literatures has the liberalizing effect of foreign travel. He who travels by translation travels more hastily and superficially, but brings home something that is worth having, nevertheless. . . . Looked at from any but the esthetic point of view, translations retain whatever property was in their originals to enlarge, liberalize, and refine. At the same time I would also have the originals of these translated books as a temptation to the study of languages, which has a special use and importance of its own in teaching us to understand the niceties of our mother tongue. The practice of translation, by making us deliberate in the choice of the best equivalent of the foreign word in our own language, has likewise the advantage of continually schooling us in one of the main elements of a good style—precision; and precision of thought is not only exemplified by precision of language, but is largely dependent on the habit of it.—Lowell.

**Lettuce Grown on Field Scale.**  
Lettuce is being grown on a field scale in the Imperial and Salt River valleys of California, fields of from 30 to 40 acres being not extraordinary. At the height of the production season—January and February—it is not uncommon for 20 carloads of lettuce a day to be shipped to the middle western and eastern market. This lettuce, grown under irrigation, is produced by hand labor and is of extra fine quality. The industry was developed on a commercial basis about three years ago, and during the last two years has been one of the leading agricultural occupations of the state. These localities also produce carrots, peas, cauliflower and table beans on a less extensive scale.

**Business as Usual.**  
Bob—Who was the handsome chap I saw you dancing with just after the intermission?  
Anne—He is a stranger in town.  
Bob—Dashing, isn't he?  
Anne—Nerviest fellow I've ever seen.

Bob—I noticed he had his arm rather tightly about you.  
Anne—I didn't mind that so much.  
Bob—What then?  
Anne—Do you know why he had me clutched that way?  
Bob—Can't imagine.  
Anne—Well, would you believe it, he had me that way so I couldn't escape, and all the time we were dancing he was trying to sell me some life insurance.

**Before and After.**  
They were both suffragists—one very pretty and young and the other much older. The older one voiced her views very emphatically for the younger one's benefit. "I think it's very impractical for women to get married before they are thirty-five," she said.

The young suffragist retorted instantly. "Yes, and I think it's very impractical for them to get married after they are thirty-five."

**Street Car Statistics.**  
According to a preliminary report issued by the bureau of the census, department of commerce, the street and interurban railways of the United States during the year 1917 transported over 11,000,000,000 fare paying passengers, representing an average of something more than 100 trips for each man, woman and child in the United States.

## ENGINEER CLINE DIES ON VISIT

Was at Home of Daughter Near Warren—Had Been Off Duty On Account of Ill Health.

Word was received at the Cline home 104 North Cedar street of the death of John Cline, aged 61 years, Thursday afternoon at 4 o'clock at the home of his daughter Mrs. Anna Cline at Warren, near Warren, where he and his wife had gone for a few days. He was a Baltimore and Ohio engineer and had been in ill health since last November, suffering with high blood pressure and eye trouble. He had been with the B. & O. service for 44 years, but had made a trip since November. The deceased was a member of the B. & O. and St. Paul's Lutheran church. He leaves his wife, three daughters and two sons. Mrs. Cline is the mother of Cline and his sister Mrs. Frank Cline of South.

The body will arrive here this evening and will be taken in charge by L. N. Bailey. Funeral services will be announced later.

The mother, Mrs. Mary Ann Cline and sister Mrs. Frank Cline of South.

## FEDERAL ASPHALT CO. LOW BIDDER

The Federal Asphalt Paving company of Hamilton, was the lowest bidder for the contract of paving East Main street when bids were opened yesterday.

The Hamilton company's bid was \$7000 for sheet asphalt with brick paving for the car tracks. The only other bidder was M. T. Keely & Son, which was about \$7000 higher than the Federal company.

There were no bidders on two of the sewer contracts—the Lexington avenue and the Ash and North Eleventh street sewers. M. T. Keely was awarded the contract for the Spring Second street sewer and Clyde A. Co. for Henderson avenue. Florence is the high school alley and Columbia street.

## SWIFT DENIES CHARGE MADE BY COMMISSION

Chicago, July 11.—Charges against the big meat-packers contained in the report issued by the federal trade commission today, were denied by Louis F. Swift, president of Swift & Co., speaking for his own company and for the other big Chicago packers—Armour company, Morris & Co., Wilson & Co. and Cudahy & Co.

"The latest report of the federal trade commission is merely an attack upon large and successful business organizations and should be resented by all Americans who are proud of the industrial progress of the nation," said Mr. Swift. "It contains nothing new and is an outgrowth of the former discredited Honey report investigation. This report, so far as I am informed, contains absolutely no evidence of collusion among the five largest packers."

"The manner in which the trade commission juggles figures and resorts to sensationalism betrays the insincerity of the commission. We are living up to both the spirit and letter of the law and want to cooperate with the government in every lawful and constructive way, but we must protest against the methods used by this important branch of the government."

"I say that the large packers and their individual associates are a public benefit and a decided factor in keeping down the spread between live stock and meat prices. This report is put out now as a part of the propaganda in which the trade commission, with others, is engaged, seeking to subject the packing industry and other lines of business to the arbitrary control of subordinate government officials through a license system. No one disputes that out of the total receipts of the packers derived from the sale of animals, about 50 percent is paid out for live animals themselves. About 13 per cent is paid out for wages, transportation and other such expenses. About 2 per cent of this turnover is turned by the packer as net profit, and the remainder is distributed in a small fraction of a cent per pound but it is so negligible and set in any way to effect the price which the consumer pays for meat."

"It is to be regretted that in these days of public feeling, the trade commission is engaged in a propaganda campaign to subject the packing industry and other lines of business to the arbitrary control of subordinate government officials through a license system. No one disputes that out of the total receipts of the packers derived from the sale of animals, about 50 percent is paid out for live animals themselves. About 13 per cent is paid out for wages, transportation and other such expenses. About 2 per cent of this turnover is turned by the packer as net profit, and the remainder is distributed in a small fraction of a cent per pound but it is so negligible and set in any way to effect the price which the consumer pays for meat."

## EUROPE MUST GET HELP FROM U. S. SAYS FINANCIER

Eugene Meyer, Jr. Recovery of the European countries from the ruin of the war will be impossible without the financial help of the U. S. This is the opinion of Eugene Meyer, Jr., managing director of the war finance corporation of America. He has been studying conditions abroad.
